

SCHOLARONE™ USING MYITINERARY

The Myltinerary app is available as both a native iOS (iPhone/iPad) app through the iTunes App Store, or as an HTML5 Web app for all major mobile devices (iPhone/iPad, Android, Blackberry 7 and above). Once either version is downloaded to your device, it can be run without the need for an active Internet connection. In addition, you can sync an itinerary that you created online with the app by entering your unique itinerary name.
